Liverpool City of Culture - TTPO

For the Liverpool European city of culture celebrations a mobile work of art was commissioned in an empty building opposite Moorfields train station in Liverpool. The piece of art, entitled "Turning The Place Over", consisted of a 7.5 Tonne structure hanging in cantilever from the side of the building that rotated at 1 rpm every day during day light hours from June 2007 up until December 2010. The project won the ACE award for small project of the year in 2008

- Mobile work of piece of art, entitled "Turning The Place Over"
- 7.5 Tonne structure hanging in cantilever from the side of the building
- Art structure rotated at 1 rpm every day during day light hours until December 2010
- The project won the ACE award for small project of the year in 2008
